Electronic Library

LOUIS

The Library Network

DID YOU KNOW?

THE TOOLS THE PROS USE WHEN THEY NEED ANSWERS.

"World Class Technology in Your Own Backyard!"

YOUR electronic **LIBRARY** has plenty of online tools to answer your questions—and you can use them whenever you want, even from home, in the middle of the night.

The region has selected these online resources for you, so you know you can trust them. The answers are accurate, and you won't end up at a website you shouldn't be seeing.

You can use the Library's online collection (databases, magazines, newspapers, references, e-books, etc.) over the Internet. It's easy to connect with the Library to find what you want and it's simple enough for anyone—from kids to experts—to use.

Remember, this online service is yours and it's absolutely free. We want you to use it!
